### Text Response

I don't have a key! Once my lunch was in the fridge and I couldn't get in.

i don't have a key, and even if i did, i feel that as a common area it should remain unlocked at all times

It's locked early in the evening, and I don't have a key.

I don't have a key, and often the door is shut and locked. Also, there are often strange people unconnected with the department in there.

It is always locked, I don't want to pay for a key to use a crummy space.

Sometimes it's locked

it is locked pretty much any time I would want to use it.

I do not have a key to the student lounge and it is locked after 5 and on the weekends, the times when I would be most likely to use the lounge

to much through traffic, often locked (I know I could have a key, but I already have to many, put a keypad on it)
